FENCING.

Triangular Meet With Harvard and Columbia

The Fencing season will open for Tech to-morrow night at the Gym with a triangular meet with Harvard and Columbia. The Harvard team is still an unknown quantity, as this is their first meet, but Columbia's record so far has been excellent. The meet with West Point, winners of last year's Intercollegiate championship, was lost by only one point, the score being 5 to 4, while they defeated Cornell in New York last Friday by the same score of 5 to 4. As Tech will be represented by practically the same team which won the Quadrangular Meet at Cambridge, last year, all indications point to most interesting contests to-morrow night.

It has been decided to have two bouts going on at the same time. The officials for the two sets of bouts will be: Referees, J. P. Parker, B. A. A. and M. Piacenti; Judges, S. Cabot, B. A. A., L. B. McBride, M. I. T., and Dr. Allen, B. A. A. and Mr. Traubridge. A cup will be given to the team winning the meet.

A New Machine.

A new addition to the equipment of the Applied Mechanics laboratory is a chain cable testing machine of 150,000 pounds capacity. This machine, designed by Prof. C. E. Fuller, was completed and tested last week. It is adapted to testing chain cables, hemp and wire ropes and knots, the long travel of the straining head, which is eight feet, allowing more stretch than is possible in the Emery or other tension machines. A specimen sixteen feet long can be held. There are six rates of applying the load, the pulling speed varying from one quarter inch to eight inches per minute. Eventually, tests on this machine will constitute part of the regular fourth year laboratory work in Applied Mechanics.

Tech Show Notice.

More men are wanted for the Tech Show chorus. There are about twenty places still to be filled. All men who intend to try should be at the Union Tuesday, at 4 p.m.

An Important Meeting Held Last Saturday.

A meeting of the New England Intercollegiate Athletic Association was held at the Hotel Lenox Saturday to decide as to where the next annual meet should be held in the Spring.

It has been a much talked of plan to have the regular Worcester meet done away with, and have the meet at a different college each year. The Association decided that it was too late to carry out the plan for this year, and the meet will be held at Worcester as usual. However, there is little doubt that the above plan will go into effect next year.

The following officers for the coming year were elected: President, Van Etten, Amherst; Vice-President, Peters, Williams; Secretary, Weeks, Wesleyan; Treasurer, G. Simpson, M. I. T.

ATHLETIC NOTES.

Capt. Jorge Lage will present a cup to the winner of the Triangular Fencing Tournament which is to be held next Tuesday evening at the Gym.

The schedule of the Hockey Team closes Wednesday, Feb. 22, with a game with the Braeburn Country Club at 10.30 a.m. After that it is proposed to play a series of class games for the championship. It is hoped that a large number of candidates will come out and make these games a great success. Thursday, Feb. 23, will be devoted to practice and to organizing the different teams and the first game of the series will be played on Friday.

A series of Handicapped Athletic Events will be held in the Gym as follows: Tuesday, Feb. 28, High Jump, 6 in. limit; Tuesday, March 7, Putting 16-lb. Shot, 3 ft. limit; Tuesday, March 14, Pole Vault, 2 ft. limit. Prizes: Silver and Bronze Medals each event, Tech design.

The applications of Brown and Dartmouth for admission to the Intercollegiate Athletic Association will be voted upon by the Association February 25.

SATURDAY NIGHT KOMMERS.

Interesting Debate Between Walker and Civic Clubs.

The feature of the Kommers Saturday night was an interesting debate between representatives of the Walker and Civic Clubs. Although there were but twenty-four men present, the evening was enjoyed by all, as the speakers presented their points very well.

The subject of debate was: "Resolved, That the Influence of National Political Parties is detrimental to the best city government." The Walker Club was represented by Curtis, Loring and Greeley who spoke on the affirmative, while Bell, Huthings and Witmer supported the negative.

The judges, Dr. Noyes, Mr. Seaver and Mr. Doten rendered a decision for the affirmative, which seemed to be the general verdict of the audience.

Hockey.

The Tech Hockey Team defeated the Newton Squash Club yesterday by the score of 9 to 0. The game was very well played throughout, though the outcome was never in doubt. Great improvement in Tech's team work and passing was shown, and their shooting was very accurate.

Stanwood, of Newton, had to retire from the game because of a severe collision with Coleman.

Line up:

THE TECH wishes to state that, as the exercises of the Institute will be suspended next Wednesday, there will be no issue on that day.

Tech men have an opportunity of seeing to-morrow evening a fencing contest which will be of the highest excellence. The Fencing Meet. Harvard and Columbia

have teams which compare very favorably with those which they have developed in previous years, and our own team is in decidedly better form than even the one which last year won in the Quadrangular Meet at Cambridge. Men who enjoy an exhibition of skillful fencing should by all means attend the meet on their own account, if not for the sake of the Team.

Senior Portfolio.

The attention of Seniors is called to the fact that, notwithstanding the repeated appeals of the Portfolio Committee, as yet but few men have made sittings. To have such a thing as the Portfolio a success, it must be evident to all that every man should be in it. It is therefore imperative that appointments be made with the Class Photographer, Mr. C. W. Hearn, 594 Boylston Street, as soon as possible. To

make it as convenient as possible for the members of the class, the following list of days when sittings may be made, is given:

Course I, Thursday; II, Wednesday afternoon; III, Friday; IV, Wednesday morning; V, Tuesday afternoon; VI, Saturday morning; VII, Wednesday afternoon; VIII, Wednesday afternoon; X, Thursday morning; XI, Tuesday afternoon; XIII, Saturday morning.

Men who cannot make engagements in these hours may make other arrangements by seeing members of the Committee at once or by seeing the photographer either on Monday or Saturday afternoons. In view of the comparatively short time remaining in the school year, members of the class are urged to make sittings without further delay.

General Mills, Superintendent of the West Point Military Academy, devotes a considerable space in his annual report to the discussion of athletics at West Point. His stand is directly opposed to that taken by President Eliot in his last report. Superintendent Mills states that, in his opinion, football is the most amusing and beneficial of the sports, and tries to refute most of the arguments advanced by President Eliot. General Mills says that careful investigation shows that the average football player loses none of his class standing because of participation in that sport. The report shows that West Point athletics have netted something over \$6,500 for the academy during the last year.

An examination for engineering and hydrographic aid will be held at various points throughout the United States on March 15. The employment will be largely in connection with the construction of irrigation works in the West at salaries of \$900 per annum and upwards.

Facts concerning this examination can be obtained by application to the U. S. Civil Service Commission, Washington, D. C.

COLLEGE NOTES.

Pennsylvania's new gymnasium is to be so arranged that a small gymnasium class may not take up the whole of the large floor space. Two nets will be suspended from the ceiling which will divide the room into three equal parts. By letting these nets down, it will be possible for a basket ball game, baseball practice and gymnasium work to go on at the same time without interfering with each other.

The contract for the construction of the Carnegie Lake at Princeton has been registered. The lake will be three and three-quarters miles long, its width varying from four hundred to a thousand feet.

The University of Syracuse is to have a laboratory of natural science costing about \$200,000, which will be erected from the bequest of the late John Lyman.
